

# MICRO POUCHES

Used for glider and possum joeys

## Wool Pouches with 100% cotton liners (3 preferred)

Liner is from 100% cotton or flannelette. Pattern next page. If you don't sew please feel free to just send knitted pouches and liners will be made for them.

Finished dimensions: 12cm wide x 12cm long when finished (after sewing together), Keeping to the 12x12 dimensions is important so that liners will fit snugly. Closed on three sides and left open at the top.

## Crochet Pouch

Materials -8 Ply 100% Wool (not acrylic)

Hook 4.00mm

Foundation: Chain to length - approx finished width should be 12cm,

Row 1: Chain 3, DC(US)/Treble(UK) in 2nd chain from hook, and in each chain until end.

Row 2 on: Repeat Row 1 until work measures approx. 24cms (twice the length).

Fold work in half and crochet or stitch the 2 sides together leaving top open.

## Liners

Materials - 100% natural fibres eg cotton, bamboo. "Baby soft"

Recommended -100% cotton flannelette, perfect for upcycling flannelette sheets..

Finished size - 12cm wide, 17cm long.

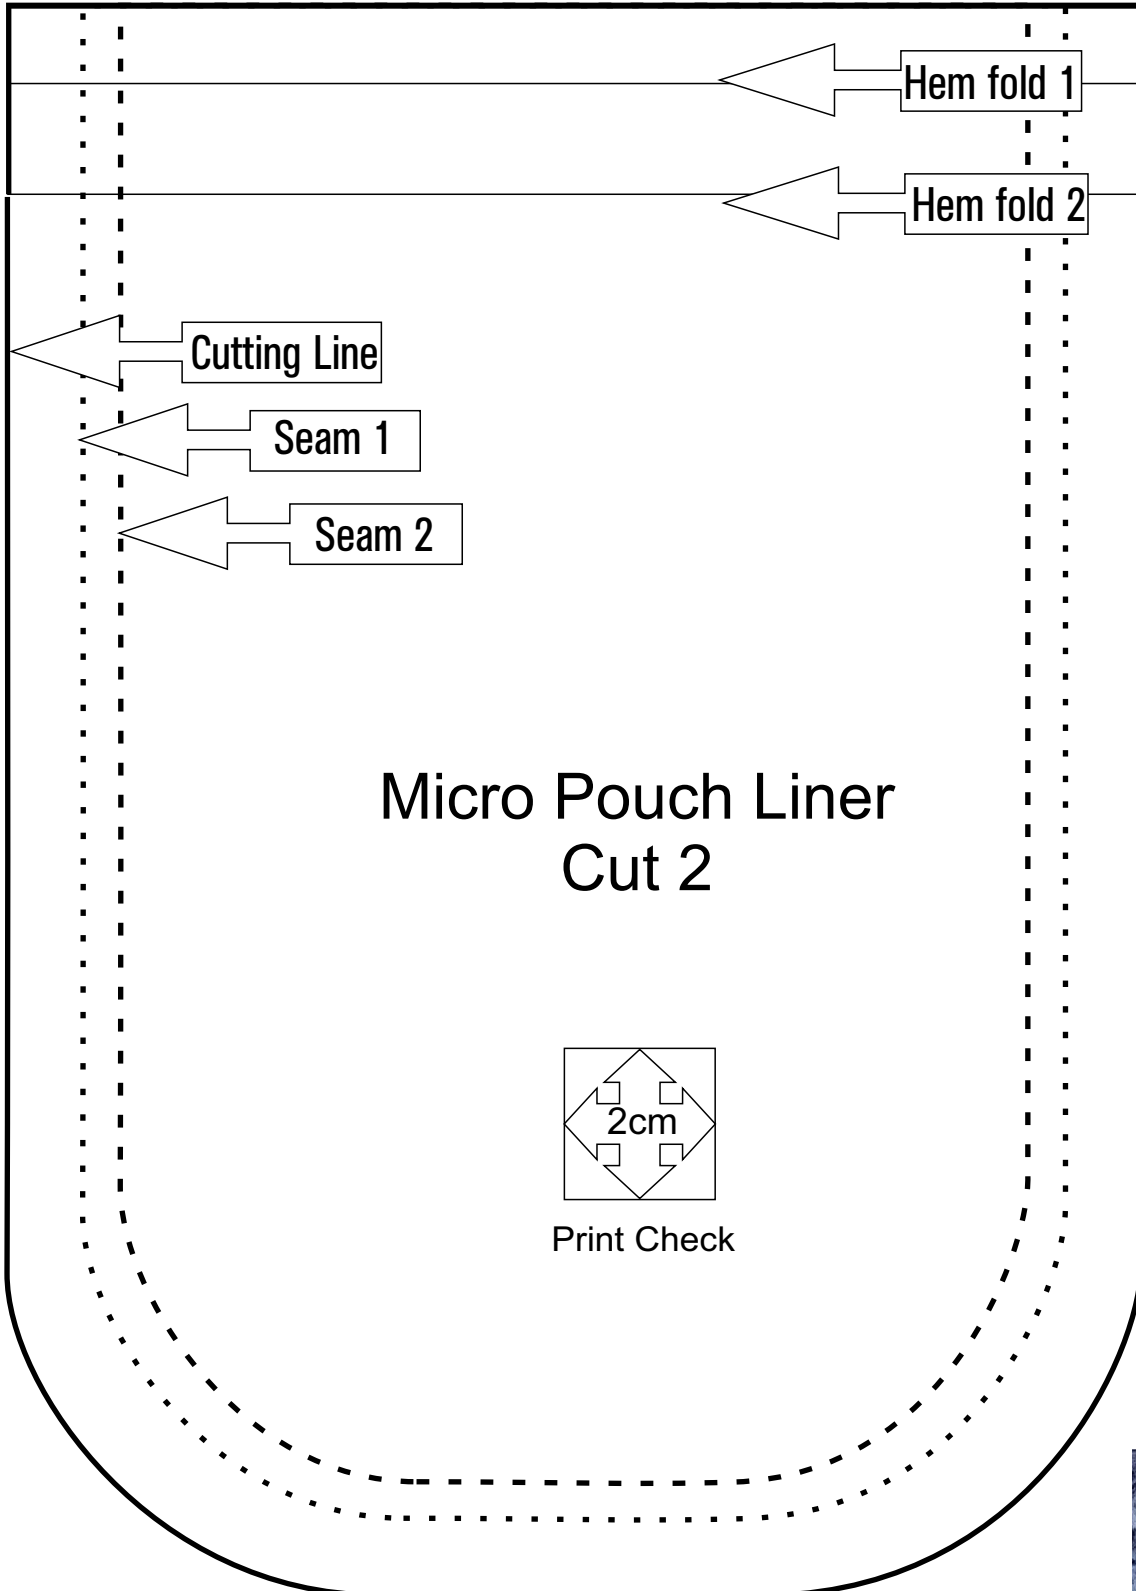

For liners RIGHT side is the softest side (potentially the unprinted side) and will be INSIDE the completed pouch liner. The inside of the liner should be the "soft" side of the fabric and be completely seam free.

- 1- Cut 2 , Pin WRONG sides together
- 2 - Sew seam 1 - 1cm from edge. Press along seam
- 3- Trim seam to 3mm wide, Turn right side in.
- 4- Sew seam 2 - 0.5cm from edge.
- 5- Double fold hem top edge, seam on the outside.

# MICRO POUCH LINER Version 1

Dimensions are important as the liners need to fit snugly in the outers.  
Finished dimensions 12cm wide and 17cm long.  
Liner includes a 5cm turndown that goes over the completed Outer

## Why French Seams?

French seams trap raw edges preventing threads sticking to wounds and claws getting caught. They also improve strength.

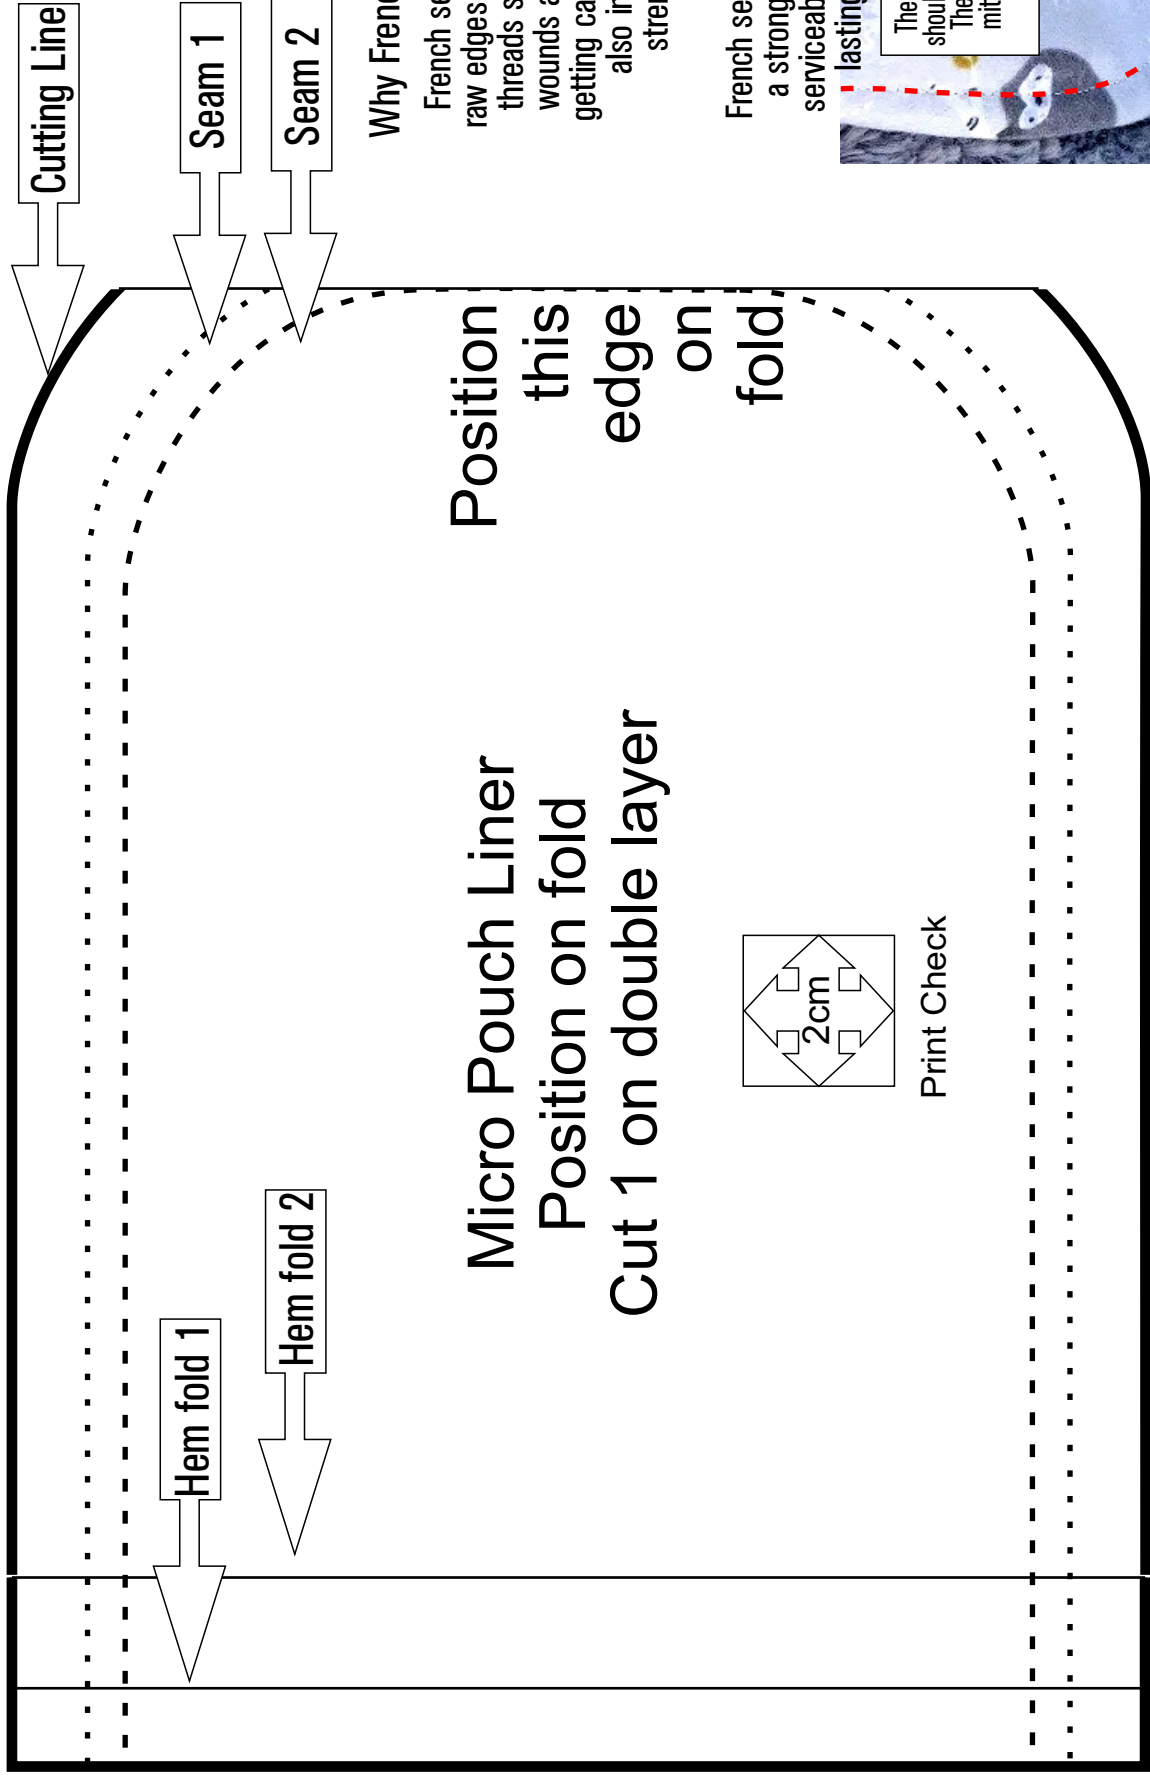

French seams make a stronger, more serviceable, longer lasting liner.

The outside seam should look like this. The inside of the mitten should be seam free

# MICRO POUCH LINER Version 2

This version is designed to be cut on a fold at bottom edge.  
 Dimensions are important as the liners need to fit snugly in the outers.  
 Finished dimensions 12cm wide and 17cm long.  
 Liner includes a 5cm turnout that goes over the completed Outer

**Why French Seams?**  
 French seams trap raw edges preventing threads sticking to wounds and claws getting caught. They also improve strength.

French seams make a stronger, more serviceable, longer lasting liner.

The outside seam should look like this. The inside of the mitten should be seam free
